

# Great time had by all at this year's Waterford Tug Boat Round-Up

This morning was beautiful. A bit of smoke on the water as mist rose through a great September sunrise. The air a bit cooler and drier than it has been.

Really, though, the weather has been great and it was nearly perfect for the Roundup - which was pretty darned good!

We had more working tugs on the wall than we have had in a long time, if ever. The attendance was high with a near record number of vendors and they reported a great time.

The mini-tugs were out there and working like crazy, pushing off, locking through and winding up and down the canal front.

The Farmer's Market ran all weekend at Lock 2 and the boaters said they had great interest on board the boats.

Yesterday was the line toss, the puppet show, more music on the Grand Erie and then the awards presentation wrapped everything up in mid-afternoon. See the article below for the full list of the award winners.

Our sponsors, of course, make it all possible. Special thanks go to all of them and please - take a look at them on our webpage so you can send a note on their Facebook page, an email to their office or a simple acknowledgement the next time you stop in.

See you all next year and thank you~!  
(check out a whole lot of pictures and video on the Facebook page, too!)
