

# Cortlandt Yacht Club Offers Individuals Ownership

The Cortlandt Yacht Club is a premier boat club located on the Hudson in Montrose, New York. It is unique in that it offers individuals ownership.

They have the capacity for one hundred owners and currently ownership is available for a limited number of members.

One of the advantages is that their slip fees are half the cost of a non owner. There is also no cost for winter storage, which includes lifting, washing and blocking.

You can be a working or non working member. The benefit of being a working member is a working member who is a part of the spring and fall work parties can amortize the cost of ownership (using a 34' boat as example) over a seven year period.

They then basically boat at half the cost. Working members receive significant credits toward their yearly fees. Another benefit for all member owners is free lifts out of the water and use of the equipment for repairs.

There is a requirement that you rent a slip at the club for one year before you become eligible to become a member owner.

You may want to check their ad on the inside cover of this magazine.

For complete details contact their Rear Commodore Jesse Brody at 914-882-8810.
