

THE HIDDEN CHARMS OF THE VILLAGE OF COXSACKIE, NY

by John H. Vargo, Publisher

Shai Kessler and Susan Baldaserini and their Reed Street Bottle Shop, Charming and Unique!

A Bucket List Destination like no other, Coxsackie, right on the Hudson River.

Flanked by a beautiful Park equipped with tables, a large free boat ramp and adjacent docks with reasonably deep water and a village that is within 3 minutes of the River. This is what you're looking for when approaching by boat or, for that matter, car.

One of the hidden gems across from the Post Office is The Reed Street Bottle Shop.

This wine shop has around three hundred of the most

interesting wines you will find outside of Brooklyn. As a matter of fact that is why you'll find them here as Shai Kessler and Susan Baldaserini came from Brooklyn seeking an "opportunity."

They fell in love with Coxsackie and decided that their dream was right here.

There are very few villages or for those matter cities along the mid Hudson River that can be reached so conveniently by boat, however Coxsackie, NY is one of them that are very easy to tie up, walk across the lawn and buy what you need for the day or for get a

Shai, with a large selection of wine, liquor, and cider at great prices.

supply of wine for the entire wine. Reed Street Bottle Shop has a ten percent discount on case lots. One of the unique part of the Reed Street Bottle Shop is that fact that a lof of the wine packaging is directed to boaters, picnics, and outside fun while enjoying delicious wines. Note the four pack of canned wines in this photo.

Beginning on May 17TH there is a Farmers Market in the park from 4:30 PM to 7:30 PM. This is scheduled for every Wednesday during the summer. On Sundays there are evening concerts in the park at the gazebo. Both events are tied to The Reed Street Bottle Shop having wine tastings at their shop.

This truly is a Bucket List Destination and one that I hope you enjoy.
